## Dyeing Techniques

- |    |                                   |    |                                  |    |                                  |
|----|-----------------------------------|----|----------------------------------|----|----------------------------------|
| 24 | Experimenting with colour         | 40 | Mordanting vegetable fibres      | 53 | Dyeing with safflower            |
| 26 | Equipment for dyeing              | 42 | Making your own mordants         | 54 | Dyeing with indigo               |
| 28 | Testing the pH value of water     | 43 | Combined mordanting and dyeing   | 56 | Dyeing with woad                 |
| 29 | Choosing items to dye             | 44 | Choosing a suitable mordant      | 58 | Modifying dye colours            |
| 30 | Animal and vegetable fibres       | 46 | Preparing plant parts for dyeing | 60 | Testing colour modifiers         |
| 32 | Absorption of dye colours         | 49 | Selecting the best dyeing method | 62 | 25 colours from one dye bath     |
| 34 | Preparing fibres for the dye bath | 50 | Cool dyeing method               | 64 | Testing the fastness of colours  |
| 36 | Fixing the dye colours to fibres  | 51 | Hot dyeing method                | 65 | Recording natural dyeing results |
| 38 | Mordanting animal fibres          | 52 | All-in-one method                |    |                                  |

## The Dye Plants

- |    |   |     |   |     |   |
|----|---|-----|---|-----|---|
| 68 | <i>Acacia catechu</i> • Cutch, Catechu  | 92  | <i>Galium verum</i> • Lady's bedstraw,<br>Yellow bedstraw         | 115 | <i>Punica granatum</i> • Pomegranate                                  |
| 69 | <i>Achillea millefolium</i> and <i>Achillea</i> hybrids<br>Common yarrow  | 93  | <i>Genista tinctoria</i> • Dyer's broom,<br>Dyer's greenweed      | 116 | <i>Pyrus communis</i> • Pear  |
| 70 | <i>Alcea rosea</i> • Hollyhock  | 94  | <i>Haematoxylon campechianum</i><br>Logwood                       | 117 | <i>Quercus</i> species • Oak  |
| 71 | <i>Alkanna tinctoria</i> • Dyer's alkanet   | 95  | <i>Hedera helix</i> • Ivy   | 119 | <i>Reseda luteola</i> • Weld, Dyer's rocket                           |
| 72 | <i>Allium cepa</i> • Onion  | 96  | <i>Hibiscus</i> species • Hardy hibiscus,<br>Rose mallow          | 120 | <i>Rhamnus</i> species • Buckthorn                                    |
| 73 | <i>Alnus</i> species • Alder  | 97  | <i>Hypericum perforatum</i> • St. John's wort                     | 121 | <i>Rheum</i> species • Rhubarb  |
| 74 | <i>Anthemis tinctoria</i> • Dyer's chamomile  | 98  | <i>Indigofera</i> species • Indigo                                | 123 | <i>Rhus typhina</i> • Staghorn sumac                                  |
| 75 | <i>Berberis</i> species • Barberry  | 100 | <i>Isatis tinctoria</i> • Woad, Dyer's woad                       | 124 | <i>Rubia tinctorum</i> • Madder                                       |
| 76 | <i>Betula</i> species • Birch   | 102 | <i>Juglans</i> species • Walnut                                   | 126 | <i>Rubus fruticosus</i> • Blackberry                                  |
| 77 | <i>Bixa orellana</i> • Annatto  | 103 | <i>Juniperus communis</i> • Juniper                               | 127 | <i>Rudbeckia</i> species • Rudbeckia,<br>Coneflower, Black-eyed Susan |
| 78 | <i>Caesalpinia</i> species • Brazilwood   | 104 | <i>Lawsonia inermis</i> • Henna                                   | 128 | <i>Rumex</i> species • Dock, Sorrel,<br>Curled dock                   |
| 79 | <i>Calendula officinalis</i> • Pot marigold   | 105 | <i>Maclura pomifera</i> • Osage orange,<br>Bois d'arc             | 129 | <i>Salix</i> species • Willow   |
| 80 | <i>Calluna vulgaris</i> • Heather   | 106 | <i>Mahonia</i> species • Mahonia                                  | 130 | <i>Sambucus</i> species • Elder, Elderberry                           |
| 81 | <i>Carthamus tinctorius</i> • Safflower   | 107 | <i>Malus</i> species • Apple                                      | 132 | <i>Solidago</i> species • Goldenrod                                   |
| 82 | <i>Chlorophora tinctoria</i> • Fustic, Dyer's<br>mulberry   | 108 | <i>Myrica gale</i> • Bog myrtle, Sweet gale                       | 133 | <i>Sorbus</i> species • Rowan, Mountain ash                           |
| 83 | <i>Coreopsis grandiflora</i> , <i>Coreopsis</i><br><i>lanceolata</i> , <i>Coreopsis verticillata</i><br>Coreopsis | 109 | <i>Narcissus</i> species • Daffodil                               | 134 | <i>Symphytum</i> species • Comfrey                                    |
| 84 | <i>Coreopsis tinctoria</i> • Dyer's coreopsis   | 110 | <i>Polygonum tinctorium</i> • Japanese indigo,<br>Dyer's knotweed | 135 | <i>Tagetes</i> species • French marigold,<br>African marigold         |
| 85 | <i>Cosmos sulphureus</i> • Yellow cosmos  | 111 | <i>Prunus</i> species • Cherry, Plum, Peach,<br>Almond, Apricot   | 136 | <i>Tanacetum vulgare</i> • Tansy                                      |
| 86 | <i>Crataegus</i> species • Hawthorn   | 112 | <i>Prunus spinosa</i> • Blackthorn                                | 137 | <i>Taraxacum officinale</i> • Dandelion                               |
| 87 | <i>Curcuma longa</i> • Turmeric   | 113 | <i>Pteridium aquilinum</i> • Bracken                              | 138 | <i>Ulmus</i> species • Elm  |
| 88 | <i>Dahlia</i> species • Dahlia  | 114 | <i>Pterocarpus santalinus</i> • Sanderswood,<br>Red sandalwood    | 139 | <i>Urtica dioica</i> • Nettle   |
| 89 | <i>Daucus carota</i> • Wild/domestic carrot,<br>Queen Anne's lace   |     |   | 140 | Bibliography  |
| 90 | <i>Eucalyptus</i> species • Eucalyptus  |     |   | 141 | Index   |
| 91 | <i>Fraxinus</i> species • Ash   |     |   | 144 | Acknowledgements  |
